

A SYSTEM, METHOD AND ARTICLE OF MANUFACTURE FOR MULTILINGUAL GLOBAL EDITING IN A SUPPLY CHAIN SYSTEM

ABSTRACT OF THE INVENTION

A system, method, and article of manufacture are provided for multilingual global editing utilizing a network. Initially, text is received in a first language from a first user utilizing a network. Thereafter, the text is translated from the first language to a second language. Such translated text is then transmitted to the first user utilizing the network for allowing the first user to edit the translated text. Thereafter, the edited, translated text may be sent to a second user utilizing the network.
